

## Rudder - Bug #7138

### System technique distributePolicy is not system and has two system var section

<b>Description</b>	
Since at least 2.10, it seems that the metadata.xml file for distributePolicy is broken:	
- it does not have a <system>true</system> tag, - it has 2 <systemvar> section.	
Seems like a broken merge, but strangely it does not seem to break anything (or perhaps just breaks things in subtle ways).
