

Rudder - Bug #7303

RuleTargetTest.scala takes >40s where it should take 2s

2015-10-23 16:36 - François ARMAND

Status:	Released	
Priority:	1	
Assignee:	Vincent MEMBRÉ	
Category:	Performance and scalability	
Target version:	2.11.16	
Pull Request:	https://github.com/Normation/rudder/pull/934	Effort required:
Severity:		Priority:
User visibility:		
Description		
There is a BIG problem with RuleTargetTest.scala. The tests take > 40s on my machine, where most other take < 200ms.		
There seems to be big inefficiencies in the loops. And the tests does not test what it things it tests.
