| <b>Status:</b> Released  |                         |
| <b>Priority:</b> N/A   |                         |
| <b>Assignee:</b> Jonathan CLARKE   |                         |
| <b>Category:</b> Packaging   |                         |
| <b>Target version:</b> 2.11.22   |                         |
| <b>Pull Request:</b> <a href="https://github.com/Normation/rudder-packages/pull/956">https://github.com/Normation/rudder-packages/pull/956</a> | <b>Effort required:</b> |
| <b>Severity:</b>   | <b>Priority:</b>        |
| <b>User visibility:</b>  |                         |
| <b>Description</b>   |                         |
| In rudder-init, when Hit any key to continue... is displayed, and you "echo" the answers to automate the process, you get an error:            |                         |
| <pre>Hit any key to continue...stty: standard input: Inappropriate ioctl for device stty: standard input: Inappropriate ioctl for device</pre> |                         |
| Please make stty conditional, by using [ -t 0 ], so no-tty environments can skip this part.  |                         |

Merge pull request #956 from peckpeck/bug\_8426/stty\_does\_not\_handle\_no\_tty\_input

Fixes #8426: stty does not handle no-tty input

#### History

##### #1 - 2016-05-31 00:05 - Janos Mattyasovszky

Or completely skip the Pause() function, but this would break functionality with existing behavior, so this is only recommended for new versions...

##### #2 - 2016-05-31 12:19 - Benoît PECCATTE

- Target version set to 2.11.22

Indeed

##### #3 - 2016-05-31 12:21 - Benoît PECCATTE

- Status changed from New to In progress

- Assignee changed from Nicolas CHARLES to Benoît PECCATTE
