

Rudder - Bug #8824

Zypper repo management "Delete all other repositories than those managed by Rudder" is broken

2016-08-08 15:18 - Janos Matya

| | |
|---|-------------------------|
| Status: Released | |
| Priority: N/A | |
| Assignee: Jonathan CLARKE | |
| Category: Techniques | |
| Target version: 3.1.14 | |
| Pull Request: https://github.com/Normation/rudder-techniques/pull/1016 | Effort required: |
| Severity: | Priority: |
| User visibility: | |
| Description | |
| G'day. | |
| Found apparently a bug in the SLES Zypper repo management technique: | |
| https://github.com/Normation/rudder-techniques/blob/master/techniques/applications/zypperPackageManagerRepositories/1.0/zypper-repositories-management.st#L67 | |
| => Here there is an additional * after the ., which I believe is unnecessary. | |
| At least with empirical tests, with the star I have this output on the repo list I want to clean up: | |
| <pre>2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-801fb2a6.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-10.xx.xx.xx-699e6d28.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-604618f7.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-00774129.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-807541a0.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/rudder-active-P-Storage-1.0-PTF.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-10.xx.xx.xx-8a5f7779.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-61481be6.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-334fdb3f.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-085864a6.repo' that is not a directory 2016-08-08T14:48:01+0200 warning: /default/zypper_repositories_management/files/etc/zypp/repos.d/./:[0]: depth_search (recursion) is promised for a base object '/etc/zypp/repos.d/http-repo.site.corp-64d041fa.repo' that is not a directory</pre> | |
| Without the star it works as designed: | |

```
