#### Description

Hi,

there's a little highly distracting thing.

You do an agent run.

It has a problem.

It tells you:

warning: 1 reports were not parsable.

Run with -i to see log messages.

You use -i

It tells you:

warning: 1 reports were not parsable.

Run with -i to see log messages.

Could you please make sure if running with -i the message is not shown again.
