

Rudder - Bug #9077

Inventory "toInt" error when parsing report with VIRTUALMEMORY = 2297795780

2016-09-16 14:49 - François ARMAND

Status: Released	
Priority: N/A	
Assignee: Vincent MEMBRÉ	
Category: Web - Nodes & inventories	
Target version: 3.1.14	
Pull Request: https://github.com/Normation/ldap-inventory/pull/89	Effort required:
Severity:	Priority:
User visibility:	
Description	
<pre>org.springframework.web.util.NestedServletException: Request processing failed; nested exception is java.lang.NumberFormatException: For input string: "2297795780"</pre>	
Because well, Java int space is [-2147483648, 2147483647]. Proposed solution: forbid machine with >2To of virtual memory. (Edit Note: it was of course a joke, this is just a awful bug)
